INTERNO
INDOOR

With the support of an internal designer and qualified technicians, today Framon S.p.A. is able to conceive, propose and develop new articles starting with the realization of drawings and possible prototypes, creating projects and stamps, up to the concrete manufacturing.

The company is extremely flexible as it is able to perform every kind of mechanical processing on the castings using technological advanced and continually renewed machinery like transfers, lathes CN and machining centers. FRAMON S.p.A. proposes its articles with a surface finishing at the first step of bolting and sandblasting.

On specific demand, with the help of a well-organized local craftsmanship, can also be provided the material with the superficial finishing required by the customer. Tradition and innovation, quality and competitiveness of the product, entrepreneurial ability and reliability make FRAMON S.p.A. to be an important partner for all the companies working in the lighting and furniture industry. The success of FRAMON S.p.A. is the capability to accept the challenge of the market maintaining during the years the fidelity to a working culture based on seriousness, constant inventive effort and careful technological updating.

FRAMON S.p.A. è un' importante azienda che da circa 40 anni si colloca sul mercato come produttrice di componenti in fusione per illuminazione ed arredamento in materiali non ferrosi. FRAMON S.p.A. fonda la sua competenza sull'apporto professionale di personale qualificato e di grande esperienza unito all'utilizzo di un livello tecnologico e di informatizzazione elevato.

Essa propone cataloghi comprendenti in totale circa 10mila articoli, buona parte dei quali disponibili a magazzino, realizza inoltre in esclusiva, nel rispetto della massima riservatezza, componenti su specifica richiesta del cliente.

FRAMON S.p.A. è una "fonderia" estremamente versatile che si avvale di alcune fra le più importanti tecnologie di trasformazione della materia prima come: la pressofusione, la fusione in conchiglia con e senza Struttura, lo stampaggio a caldo; impiegando materie prime tra cui l'alluminio, l'ottone, la zama e alcuni tipi di materie plastiche.

Con il supporto di un Designer interno e di tecnici qualificati, FRAMON S.p.A. è in grado di ideare e proporre nuovi articoli da sviluppare partendo dalla realizzazione di disegni ed eventuali prototipi, creando progetti e stampi per arrivare alla produzione.

Estremamente duttile anche perché è in grado di eseguire qualsiasi tipo di lavorazione meccanica sulle fusioni prodotte, utilizzando importanti macchinari tecnologicamente avanzati e costantemente rinnovati, come complessi transfer, torni a controllo numerico e centri di lavoro.

FRAMON S.p.A. propone i propri articoli con una finitura superficiale che si ferma volutamente al primo stadio di burattatura o di sabbiatura, ma, su specifica richiesta, ricorrendo ad un importante e qualificato artigianato locale, è in grado di fornire il materiale con la tipologia di finitura superficiale come richiesto dal cliente.

Tradizione e innovazione, qualità e competitività del prodotto, capacità imprenditoriale e affidabilità, fanno di FRAMON S.p.A. un partner importante per tutte le aziende operanti nel settore dell'illuminazione e dell'arredamento.

Il successo di FRAMON S.p.A. è la capacità di saper cogliere le sfide del mercato, mantenendo ferma negli anni la fedeltà a una cultura del lavoro basata sulla serietà, sul continuo sforzo creativo e sull'accurato aggiornamento tecnologico.

Al contar con la aportación profesional de personal cualificado con gran experiencia, y ayudados por un elevado nivel tecnológico y de informatización, FRAMON S.p.A. es hoy una importante empresa que desde hace casi 40 años se sitúa en el mercado como productora de componentes de fundición para iluminación y decoración en materiales no ferrosos.

Propone catálogos propios que abarcan en total unos diez mil artículos, de los cuales buena parte está disponible en el almacén, y además realiza en exclusiva y respetando la máxima confidencialidad, componentes según las necesidades específicas del cliente.

FRAMON S.p.A. es una fundición extremadamente versátil que cuenta con algunas de las más importantes tecnologías de transformación de la materia como: la presofusión, la fundición en coquilla con y sin alma o el moldeo en caliente; empleando materias primas como el aluminio, el latón, la zama y algunos tipos de materias plásticas.

Con el apoyo de un diseñador interno y de técnicos cualificados, hoy FRAMON S.p.A. es capaz de idear y proponer nuevos artículos para su desarrollo, partiendo de la realización de planos y de los eventuales prototipos, creando proyectos y moldes para llegar a la producción.

Extremadamente dúctil porque es capaz de efectuar cualquier tipo de elaboración mecánica sobre las fundiciones producidas, utilizando importantes máquinas de avanzada tecnología que se renuevan constantemente, como complejos transfer, tornos de control numérico y centros de trabajo.

FRAMON S.p.A. presenta sus artículos con un acabado superficial que se detiene voluntariamente en el primer estadio de pulido a bombo o de enarenado, pero que según las necesidades específicas, valiéndose de importantes y cualificados artesanos locales, es capaz de proporcionar el material con la tipología de acabado superficial requerida por el cliente.

Tradición e innovación, calidad y competitividad del producto, capacidad emprendedora y fiabilidad hacen de FRAMON S.p.A. un proveedor importante para todas las empresas que operan en el sector de la iluminación y de la decoración.

El éxito de FRAMON S.p.A. radica en la capacidad de saber asumir los retos del mercado manteniendo con firmeza en los años la fidelidad a una cultura del trabajo basada en la seriedad, en el continuo esfuerzo creativo y en la rigurosa actualización tecnológica.

إن نجاح FRAMON S.p.A يعود إلى قدرتها على مواجهة تحديات السوق مع التمسك على مر السنين بثقافة عمل تؤمن بالجدية وببذل جهود مستمرة في مجال الإبداع والتطوير، وعلى التحديث المستمر للتكنولوجيا المطبقة.

Pouvant compter sur l'apport professionnel d'un personnel qualifié de grande expérience et grâce à un niveau technologique élevé et informatisé, FRAMON S.p.A. est aujourd'hui une grande entreprise qui depuis environ 40 ans se place sur le marché en qualité de producteur de composants moulés pour l'éclairage et l'ameublement à base de matériaux non ferreux.

Elle propose catalogues qui se composent d'environ 10 mille articles au total dont une bonne partie est disponible en magasin; de plus, elle réalise en exclusivité avec la plus grande confidentialité, des composants sur demande spécifique du client.

FRAMON S.p.A. est une "fonderie" extrêmement flexible qui se sert de plusieurs technologies de transformation de la matière première parmi les plus importantes telles que: la coulée sous pression, la coulée en coquille avec et sans âme, le moulage à chaud; en employant des matières premières comme l'aluminium, le laiton, le zamac et certains types de matières plastiques.

Avec le support d'un Designer, faisant partie de l'entreprise et de techniciens qualifiés, FRAMON S.p.A., est aujourd'hui en mesure de concevoir et de proposer de nouveaux articles en partant de la réalisation des dessins et d'éventuels prototypes, en créant des projets et des moules pour enfin arriver à la production.

Elle est extrêmement ductile, car elle est en mesure d'exécuter tout type de fabrication mécanique sur les moulages en production, en utilisant des machines de technologie avancée sans cesse mises à jour, comme les transferts complexes, les tours à contrôle numérique et les centres de travail.

FRAMON S.p.A. propose ses articles avec une finition superficielle qui s'arrête volontairement au premier stade, au tonneau ou au sablage, mais sur demande spécifique, en s'adressant à l'artisanat local qualifié, elle est en mesure de fournir le matériau avec la typologie de finition superficielle demandée par le client.

Tradition et innovation, qualité et compétitivité du produit, compétence managériale et fiabilité font de FRAMON S.p.A. un partenaire important pour toutes les entreprises qui opèrent dans le secteur de l'éclairage et de l'aménagement.

Le succès de FRAMON S.p.A. et sa capacité de savoir cibler les défis du marché en restant fidèle à une culture de travail basée sur le sérieux, sur l'effort créatif continu et sur une minutieuse mise à jour technologique.

Опираясь на профессиональный вклад квалифицированного персонала, обладающего большим опытом, и на высокий технологический и информационный уровень, FRAMON S.p.A. сегодня является важным предприятием, которое около 40 лет позиционируется на рынке, как производитель литых комплектующих из не содержащих железо материалов для освещения и интерьера.

Фирма предлагает собственный каталог, содержащих в общей сложности около 10 тысяч товаров, значительная часть которых имеется на складе, а также осуществляет эксклюзивную поставку, с соблюдением максимальной конфиденциальности, компонентов по индивидуальной спецификации клиента.

FRAMON S.p.A. - это очень разносторонний "литейный цех", в котором применяется ряд таких важнейших технологий преобразования сырья как: литье под давлением, литье в одностенных и многостенных кокилях, горячая штамповка; с использованием такого сырья как алюминий, латунь, сплав Zn+Al+Mg и некоторые типы пластмасс.

С помощью штатного Конструктора и квалифицированного инженерного персонала сегодня FRAMON S.p.A. в состоянии изобретать и предлагать новые товары, благодаря наличию цикла разработки, включающего создание дизайнов и возможных опытных образцов, создание проектов и форм, вплоть до производства.

Высокая гибкость основана на возможности выполнения любой механической обработки произведенных отливок, с применением такого важного высокотехнологичного и постоянно обновляемого оборудования, как поточные линии, токарные станки с ЧПУ и многоцелевые станки.

FRAMON S.p.A. предлагает собственные товары с поверхностной обработкой по чистоте преднамеренно не превышающей первую стадию галтовки или пескоструйной обработки, но по индивидуальному заказу, прибегая к услугам важных и квалифицированных местных мастеров, в состоянии поставлять материал с таким типом отделки поверхности, какой требуется клиенту.

Традиция и инновация, качество и конкурентоспособность изделия, предпринимательские возможности и надежность делают FRAMON S.p.A. важным партнером для всех предприятий, работающих в секторе освещения и оборудования интерьера.

Успех FRAMON S.p.A. заключается в способности улавливать рыночные веяния, неся через годы неизменную верность культуре работы, основанной на серьезности, непрерывной творческой деятельности и тщательной модернизации технологии.
