Suspensions

Un piccolo corpo sferico che, grazie ad una luce calibrata, riesce ad esaltare, nella sua semplicità, l'arte della lavorazione artigianale del vetro. Le raffinate sfere color bronzo, cristallo trasparente, cristallo fumé e verde foresta generano riflessi evocativi di elementi naturali, movimenti di acqua colpiti da luci e ombre che si trasformano e generano atmosfere nostalgiche. La versione a sospensione si presta con naturalezza a vivere da sola, ma anche in eleganti composizioni.

A small and simple spherical body that exalts, through a calibrated light, the art of glass craftsmanship. The refined bronze, transparent crystal, smoke grey crystal and forest green spheres generate evocative reflections of natural elements, water wavings hit by lights and shadows that mutate generating nostalgic atmospheres. The suspension version is able to live alone, but also in elegant suspended configurations.

Suspensions

Un piccolo corpo sferico che, grazie ad una luce calibrata, riesce ad esaltare, nella sua semplicità, l'arte della lavorazione artigianale del vetro. Le raffinate sfere trasparenti color bronzo generano riflessi evocativi di elementi naturali, movimenti di acqua colpiti da luci e ombre che si trasformano e generano atmosfere nostalgiche. La ritmicità delle sfere distribuite lungo l'anello di alluminio definisce un'immagine elegante e d'impatto.

A small and simple spherical body that exalts, through a calibrated light, the art of glass craftsmanship. The refined transparent and bronze-coloured spheres generate evocative reflections of natural elements, water wavings hit by lights and shadows that mutate generating nostalgic atmospheres. The rhythmicity of the spheres distributed along the aluminum ring defines an elegant and striking image.
